FAMILLE TODESCHINI

DESIRE TO CREATE...

Even if making red wines has always been our thing,

We are also quite passionate about whites...

By a fortunate coincidence, the Feret Collection from 1898 mentioned the delicacy of the white wines that used to be produced in Mangot at that time.

We therefore dreamed to rewrite the history...

AN ACTUAL ROSÉ WINE...

Even though it is labelled as "Bordeaux", it is quite atypical!

This wine was neither made by mistake, nor by chance: It is the result of both a thoughtful plot selection and careful cultural practices.

This 100% Merlot Rosé is made by direct pressing of the grapes in stainless-steel tanks which are kept at very low temperature during the whole vinification process. We try to keep its winemaking as natural as possible.

« PRODUCED AND AGED LIKE A WHITE WINE! »

... FINE AND DELICATE

Our Rosé comes in 6 different bottles with a glass stopper, for a very couture look!

Product in Organic Agriculture
3^d year of Biodynamic conversion

Harvest, the 9th of September

PRODUCTION 2022 :

15 600 Bottles / 300 Magnums
