

M de MANGOT 2019

A new kind of Bordeaux Rosé
Since 2009... 10 years already !

TECHNICAL SHEET

DESIRE TO CREATE ...

Even if making red wines has always been our thing,
We are also quite passionate about whites...

By a fortunate coincidence, the Feret collection from 1898 mentioned the delicacy
of the white wines that used to be produced in Mangot at that time.

We therefore dreamed *to rewrite the history...*

...AN ACTUAL ROSÉ WINE...

Even though it is labelled as «Bordeaux», it is quite *atypical!*

This wine was neither made by mistake, nor by chance: it is the result of both
a thoughtful plot selection and careful cultural practices.

This *100% Merlot Rosé* is made by direct pressing of the grapes
in stainless-steel tanks which are kept at very low temperature
during the whole vinification process.

We try to keep its winemaking as natural as possible.

Produced and aged like a white wine!

...FINE AND DELICATE

Our Rosé comes in 6 different bottles with a glass stopper,
for a very couture look!
